For those undergraduate students who entered the University between Fall 1974 through Spring 1991, the grade of F was not used in the compilation of the Grade Point Average (GPA) until Summer 1999. For those undergraduates who entered the University in or after Summer 1991, the grade of F was used in the compilation of the GPA. Re-admitted undergraduate students who were graded under the F policy in effect at the time of their last enrollment until Summer 1999, the 1-X IX students were not graded under the F policy in effect at the time of their last enrollment until Summer 1999. The 1-X IX students were not required to be re-enrolled and were not used in the compilation of the GPA.

grades of D and F were not remediated upon approval (See Denver Bulletin for further information), the grades of C and F are always included in the computation of the Grade Point Average (GPA). As of the Fall 2003 term, the grade of D was eliminated from the School of Dentistry grading system making it no longer a valid grade.

Non-law courses taken during the law degree program may not be counted toward grade points or toward credits earned by students.
